# JUNGLEBEATS

Watch your child's knowledge of nature and the world around them soar with International wildlife TV presenter Hayden Turner and his unique wild weekly workshops!

## WILD WEEKLY WORKSHOPS FOR SUMMER HOLIDAYS!

**Wildlife Talks, Videos, Dancing, Singing, Drumming, Acting, Learning, Mini-Beasts, Animal Puppets and much more!**

**JungleBeats** is a brand new, unique and exciting activity program for children, designed and run by international wildlife TV presenter Hayden Turner. It's going to take your child's knowledge of nature and the world around them to new heights!

It's going to advance and expand their creativity, inspire them musically, and develop their physical, personal and social confidence. He bases his fun and exciting teaching techniques and communication with children around these principles. They will think innovatively and learn through his contagious enthusiasm for all things wild!

Hayden travels the world presenting documentaries for the National Geographic Channel and also runs an exclusive safari company based in London.

He was a Senior Zookeeper at Sydney's Taronga Zoo in Australia for 10 years, before moving to Africa. Hayden was instrumental in setting up several education initiatives at the zoo, in particular, an incredible sleep-over experience for students and families that is still running today.

He has been inspiring young people and adults about wildlife and the environment for over 20 years. He combines his knowledge of wildlife with his love for children's education, championing a 'learning by enquiry' technique, positive environmental messages and confidence building in everything he does. Your child is going to have a wild time!

**Hayden Turner**  
*has been working with animals and children for 20 years..  
And he is still alive!  
He is a passionate wildlife TV presenter for National Geographic Channel, has travelled to over 50 countries and worked with wildlife and kids all over the world.*

## Everyday your children will discover fascinating new things!

The whole **JungleBeats** experience is based on having fun while learning about the natural world in which we live, developing life skills and gaining confidence.

On arrival, Hayden will greet each child and parent and explain how the 1.5 hour workshop works. Every day will be different starting off with a 5 minute award-winning animated video that will set the scene for the activities ahead. All levels of fitness and co-ordination are welcome and there is no restriction on this. We will make everyone feel like a 'wild child' and leave each day feeling fantastic!

The daily program involves ;

- A video from an award winning children's animation series
- Discussion about the animals and the issues faced in the animation
- Acting and dancing related to the wildlife and the story.
- Drawing sessions on animals
- Animal puppets and question time
- Face painting on the final day
- 'Mini-Beast' experiences
- Learning games
- An achievement certificate and much more!

Hayden bases his teaching and communication with children around these principles;

1. **Creative Development**
2. **Knowledge of the Nature and the World around us**
3. **Musical Inspiration and Appreciation**
4. **Physical Confidence & Development**
5. **Personal and Social Development**
6. **Mathematical Development**

## JUNGLEBEATS

### Children Love Nature!

The world would be such a dull place without the animals and plants which add so much beauty and colour to it. Children are naturally attracted to the natural world and

**JungleBeats** is perfect way to help your child uncover the delights of wildlife and the planet we live on!.
